TO: All Concerned Persons

1. On July 17, 2008 at 1:00 p.m. a public hearing will be held in the OCHE conference room at 46 North Last Chance Gulch, Helena, Montana, to consider the adoption, amendment, and repeal of the above-stated rules.

2. The Board of Public Education will make reasonable accommodations for persons with disabilities who wish to participate in this public hearing or need an alternative accessible format of this notice. If you require an accommodation, contact the Board of Public Education no later than 5:00 p.m. on July 7, 2008, to advise us of the nature of the accommodation that you need. 3. Statement of Reasonable Necessity: The Board of Public Education has determined it is reasonable and necessary to adopt, amend, and repeal rules relating to technology content standards and performance descriptors pursuant to ARM 10.54.2503 Standards Review Schedule. The board has determined that to stay consistent with the legislative intent of Senate Bill 152 of the 2005 Legislative Session it must review and make contemporary amendments to its standards. The Legislature recognizes the need to reassess educational needs on a cyclical basis and the board recognizes its standards represent the minimum standards. These standards are the basis upon which a quality system is built and maintained. The board strives to conform to a five year review cycle for every chapter of accreditation. The standards review process uses context information, criteria, processes, and procedures identified by the Office of Public Instruction with input from representatives of accredited schools.
